OUR SUSHI IS SAFE

Food safety is our top priority! ServSafe (the industry standard) considers raw sushi to be safe to eat when the temperature is between 41–135 degrees for up to 2 hours. Since it's so delicious, our sushi tends to disappear quickly. But if you save some for later, be sure to refrigerate it within 2 hours. Ordering sushi to go? It will be safe to eat at room temperature for up to 2 hours after pickup.
